

Universal Charger

Instruction Manual

iiglo®

Specification

- Model no: II-UC003W
- Input: 100 - 240V ~ 50 / 60Hz 1.3A Max
- Type C Output: 5V=3A, 9V=3A, 12V=2A, 15V=2A, 20V=1.5A
- QC3.0 Output: 3.6-6.5V=3A, 6.5-9V=2A, 9-12V=1.5A
- Size: 65x65x28mm
- Net weight: 130g
- QC3.0 inside color: Green
- Storage temperature: - 10°C-85°C
- Working temperature: 0°C-40°C, for indoor use only
- Compatible with most of 5V 9V 15V 20V devices in the market, such as mobile phones, tablets ect.

Accessories

User manual x 1 pcs

Features

- Unique New Design
- Modern and unique design brings safe and fast charging experience for your devices.
- Travel Friendly: with global voltage compatibility (100V-240V), the item could work in most countries in the world and you can charge wherever you want.

Safety information

- This device is intended for indoor use only.
- Keep away from direct sunlight, high temperatures, liquids or extreme humidity.
- Keep out of reach of children.
- Be sure to connect only devices which require a power less than or equal to 30W for USB-C and 18W for USB-A.
- Make sure the wall outlet is supplying the same type of power source indicated on the device with regard to the voltage (V) and frequency (Hz).
- Before use, check that the device, the power cable and the wall outlet are not damaged in any way.
- Make sure that the device is not placed on surfaces sensitive to heat and that the adapter has sufficient ventilation.
